Investments

Company

Value of investment

Alstom

£165,965

Alstom is a French transportation conglomerate. It was included on the United Nations OHCHR's list of business enterprises active in Israel's illegal settlements, based on stolen Palestinian land. [WhoProfits](#) report that Alstom is involved in the construction and operation of the Jerusalem Light Rail project, directly as well as through its fully owned subsidiary, Citadis Israel, which is the maintenance contractor for the project. The JLR project contravenes international law since it solidifies Israel's grip on occupied Palestinian land, including East Jerusalem.

HSBC

£214,182

HSBC is a large British bank. Research by [War on Want](#) in 2017 found that HSBC invests over £830million in, and provides financial services worth up to £19billion for, companies supplying Israel with weapons and military technology used in its militarised attacks on Palestinians.
