### Company

#### BAE Systems

BAE Systems is a large British arms producer. As reported by [Investigate](#), it manufacturer weapons and military technology used by Israel in its militarised attacks on Palestinians.

### Nature of link/relationship

In 2015 Warwick Manufacturing Group renewed a memorandum on understanding with BAE Systems for the delivery of a post-graduate programme in cyber security.

### JCB

British company JCB manufactures both civil and military bulldozers, which are regularly used by the Israeli police, military and Civil Administration to demolish Palestinian property. It was JCB machines that rolled into the Bedouin village of Khan al-Ahmar last year to begin the preparations for demolition. JCBs bulldozers are used to build Israels illegal settlements and to expand Israels apartheid wall in the West Bank. They are also used in the construction of checkpoints and roadblocks. Over the last year, Israeli contractors have been strengthening the apartheid wall around Gaza, which is an integral part of Israels siege of Gaza. The UN Human Rights Council has repeatedly stated that companies must terminate all business involvement in Israels illegal settlement activity, says Ryvka Barnard, senior campaigner on

The University of Warwick's WMG (Warwick Manufacturing Group) energy group developed new software to power more intelligent JCB machines, developed as part of a joint project between University of War

militarism and security at War on Want. Companies such as JCB are directly supporting the destruction of Palestinian homes and schools and are profiting from illegal activity and in this case, war crimes. Last year, JCB bulldozers were documented as being used to demolish two Palestinian schools. In August 2018, UK legal advocacy organisation Lawyers for Palestinian Human Rights wrote to JCB, citing serious concerns that their business activities were leading to serious violations of human rights, and that the company was not fulfilling its legal obligations.
